

P-KEYBOARD™

Operate your Okuma remotely including changing Tool Offsets, Common Variables.

P-Keyboard includes a complete, on-screen QWERTY Keyboard, Numeric Keypad, and Panel Mode Select feature which helps to simplify the process of typing and command entry.

Benefits

Use P-Keyboard from remote locations or when direct access to the OSP-Control isn't possible or practical. P-Keyboard also speeds up switching between OSP-Control screens. Flexibility for deployment as a stand-alone application or as a "companion" app together with other dataZen applications.

dataZen Inc.
